**DETAILED ACTION**

**And**

**NOTICE OF ALLOWANCE**

1. **Claims 1-14** are allowed.

**Examiner's Reasons for Allowance**

2. The following is an examiner's statement of reasons for allowance: The following limitations, in combination with other limitations are neither anticipated nor obvious over the prior art, "*collectively determine simulated attributes of objects of an environment under simulated operation,*" in combination with "*each service code means executing at a rate independent of the other service code means wherein the rate is based on the simulated attributes.*" The combination of the cited limitations in combination with the Applicant's arguments in the Appeal Brief, *submitted on 12/23/2004*, have been persuasive and the Examiner withdraws all of the earlier rejections. Specifically, where the Applicant argued, *on page 6 of the 12/23/2004 Appeal Brief*, Applicant argued, "*Perhaps the Examiner considers the various "simulators" 12, 14, 16 and 18 (disclosed in Figure 1) to be the "service code means."* However, contrary to the Examiner's assertions, *these simulators do not operate at a rate independent of the rate of the other "simulators"* Rather, the execution of each "simulator" is controlled by the simulator manager 20, which "*periodically calls different simulators and passes control to these simulators.*" Col. 5 lines 30-31." The Examiner has found this argument, in combination with the previous arguments and instant amendments to Applicant's claim language to be persuasive. Independent **Claims 1 and 8** are allowed.

Art Unit: 2123

**2.1** Dependent **Claims 2-7 and 8-14** are allowed as they depend upon an allowed base claim.

**2.3** Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
